

SALT GRANULAR HYDROSOFT

Product Name: SALT**1. Identification of the Substance/Preparation and Company**

Address/Phone No: Abbeychem Limited T/A Abbey Chemicals
Victory House
245 Southtown Road
Great Yarmouth
Norfolk
NR31 0JJ

sales@abbeychemicals.co.uk

Emergency Tel No: +44 (0) 1270 502891

2. Hazards identification

EC Classification: Not classified according to Regulation (EC) No. 1272/2008 (CLP)

Hazards

Unlikely to cause harmful effects under normal conditions of handling and use.

3. Composition/Information on Ingredients

Product Description: Granular. Pure Dried Vacuum and Undried Vacuum.
Hydrosoft™ Granular and hydrosoft™ Tablets. Microfine.

Alternative names: Sodium Chloride, Common Salt, Evaporated Salt.

CAS No. 007647-14-5

EC No. 231-598-3

3.1 Hazardous Ingredient(s)

Contains no hazardous ingredients in accordance with EC Regulation 1907/2006.

4. First Aid Measures**Inhalation**

Remove patient from exposure.

Skin Contact

Wash skin with water.

Important Note: The information contained in this document is given in good faith and is to the best of suppliers Knowledge correct at the date of publication, but it is for the users to satisfy themselves of the suitability of the product for their purpose.

SALT GRANULAR HYDROSOFT

Eye Contact

Irrigate with eyewash solution or clean water, holding the eyelids apart, for at least 10 minutes. If symptoms develop, obtain medical attention.

Ingestion

Wash out mouth with water and give 200-300ml (half a pint) of water to drink.

Further Medical Treatment

Symptomatic treatment and supportive therapy as indicated.

5. Fire-Fighting Measures

Non-combustible.

Extinguishing Media

As appropriate for surrounding materials/equipment.

Hazardous Decomposition Product(s)**Fire Fighting Protective Equipment**

No special requirements.

6. Accidental Release Measures

Clear up spillages. Transfer to a container for disposal. Wash the spillage area with water. Spillages or uncontrolled discharges into watercourses must be IMMEDIATELY alerted to the Environmental Agency or other appropriate regulatory body.

7. Handling and Storage**7.1 Handling**

Avoid prolonged skin contact. Atmospheric levels should be controlled in compliance with the occupational exposure limit. Keep away from strong acids and common metals. Static electricity can be generated by pneumatic conveying, therefore pipes should be bonded and earthed, especially where a spark could prove hazardous.

7.2 Storage

Keep container dry. Keep away from strong acids.

Important Note: The information contained in this document is given in good faith and is to the best of suppliers Knowledge correct at the date of publication, but it is for the users to satisfy themselves of the suitability of the product for their purpose.

SALT GRANULAR HYDROSOFT

8. Exposure Control/Personal Protection

Wear suitable protective clothing and sys/face protection. An approved dust mask should be worn if exposure to high levels of material are likely.

8.1 Occupational Exposure Limits

Workplace exposure limits (UK HSE EH40)
Long Term Exposure Limit (8hr time weighted average)

Total Inhalable Dust: 10mg/m³

Respirable Dust: 4mg/m³

9. Physical and Chemical Properties

These properties are the most relevant and no other properties are available.

Form	Crystals
Colour	colourless
Odour	odourless
Boiling Point (°C)	1413
Melting Point (°C)	802
Density (g/ml)	up to 2.165 at 20°C
Solubility (Water)	freely soluble
Bulk Density (g/ml)	1.2 to 1.5 approximately (except tablets)
Additional properties	Granular grade: rounded crystals 1-3mm in size. Pure Dried Vacuum grade: free running cubic crystals mostly 0.2-0.6mm in size. Tablets: 24x24x13mm

10. Stability and Reactivity

Hazardous Reactions	Reaction with concentrated acid will produce hydrogen chloride. Under wet conditions, will corrode many common metals, particularly iron, aluminium and zinc.
----------------------------	------------------------------------------------------------------------------------------------------------------------------------------------------------------

Important Note: The information contained in this document is given in good faith and is to the best of suppliers Knowledge correct at the date of publication, but it is for the users to satisfy themselves of the suitability of the product for their purpose.

SALT GRANULAR HYDROSOFT

11. Toxicological Information

Inhalation

High concentrations of dust may be irritant to the respiratory tract.

Skin Contact

Repeated or prolonged contact may result in dryness leading to mild irritation.

Eye Contact

Dust may cause irritation.

Ingestion

May cause vomiting and diarrhoea. The swallowing of small amounts is unlikely to cause any adverse effects.

Long Term Exposure

Repeated ingestion of excessive amounts may cause disturbance of body electrolyte and fluid balance.

12. Ecological information

Environmental Fate and Distribution

High tonnage material used in open systems. Solid with low volatility. The product is soluble in water. The product has no potential for bioaccumulation. The product is predicted to have high mobility in soil.

Persistence and Degradation

No data.

Toxicity

Low toxicity to aquatic organisms.

Effect on Effluent Treatment

Adverse effects would not be expected.

13. Disposal Considerations

Disposal should be in accordance with local, state or national legislation.

14. Transport Information

Not Classified as Dangerous for Transport.

Important Note: The information contained in this document is given in good faith and is to the best of suppliers Knowledge correct at the date of publication, but it is for the users to satisfy themselves of the suitability of the product for their purpose.

SALT GRANULAR HYDROSOFT

15. Regulatory Information

There is no legal requirement to provide an SDS or information required under article 32 of REACH for this product.

Not Classified as Dangerous for Supply/Use.

Name of Substance or
Preparation:

SALT

UK Control Regulations:

Control of Substances Hazardous to Health Regulations (COSHH) 2002 SI 2002/2677 and COSHH Essentials: Easy steps to control chemicals – Control of Substances Hazardous to Health Regulations HSG193.

Important Note: The information contained in this document is given in good faith and is to the best of suppliers Knowledge correct at the date of publication, but it is for the users to satisfy themselves of the suitability of the product for their purpose.
