

# ATTIX 40 & ATTIX 50

*Wet and dry vacuum cleaners*

## Nilfisk ALTO

*Why Compromise*

# ATTIX 40 & ATTIX 50

## Wet and dry vacuum cleaners

### Filter Cleaning As Standard

Manual Push&Clean filter cleaning on all ATTIX 40 & 50 PC models, and automatic XtremeClean filter cleaning on all ATTIX 50 XC models.

### High Performance & Capacity

Container volumes from 37-47 litres mean the ATTIX 40 & 50 range can handle most applications. NEW improved turbine design provides high suction performance.

### Superior Wet Dirt Collection

All NEW ATTIX vacuums include a PET filter which can be washed and is very hard wearing. To improve wet dirt collection the NEW range also features a 'fleece' filter bag. This NEW bag is more durable to wet dirt which means easier disposal.

ATTIX 40-01 PC INOX shown

ATTIX 50-21 XC shown

### High Mobility

The ATTIX range is highly mobile with reinforced front castors providing excellent movement along all surfaces

### Cable & Accessory Storage

Cable grip for easy cable storage, plus on-board storage for extension tubes and accessories.

### Auto On/Off Socket for Power Tools (-21 versions)

Electric Power Tool dust extraction socket on all '-21' models mean the vacuum will start and stop when the tool is operated, reducing noise and power waste. The speed control also gives you control of the suction power and noise level.

### ATTIX 50-21 PC CLEAN ROOM

This model offers H class filtration to suit clean room applications coupled with a unique brushless single phase electric motor. This makes it suitable for use in sensitive pharmaceutical or electronic manufacturing areas where the presence of carbon dust in the working atmosphere is not acceptable

## OPTIONAL ACCESSORIES (see product catalogue for further accessories)

### Water Vacuuming Set

3 piece set includes 2 x stainless steel 500mm suction tubes, special plastic floor nozzle and crevice nozzle - 7727

### Trade & Industry Set

5 piece set includes 2 x stainless steel 500mm suction tubes, plastic crevice nozzle, large capacity floor nozzle with brush strips, replacement wet rubber lips, oil and heat resistant flat rubber nozzle - 63213

### Vacuuming Kit for -21 model

Includes crevice nozzle, brush nozzle, universal nozzle, professional floor tool, extension tubes and 3 metre hose - 302003703

### Air box (For -21 models)

Allows the machine to be used as an automatic dust extractor for pneumatic power tools - 107400079/107400394

## FILTER CLEANING SYSTEMS

### Push&Clean

For fast and simple filter cleaning

1. Block the inlet fitting or hose
2. Push and release the filter cleaning button to activate air pulses which clean the filter from the inside out.

### XtremeClean

The filter is automatically cleaned while the machine is working. Automatic air pulses clean the filter from the inside out giving superior results.
