

AHS-70

Hand Gel

Contains 70% Alcohol

An easy to use quick drying treatment that ensures effective sanitising of hands. Suitable for use in the food industry, un-perfumed and non-tainting. Suitable for the health care industry to prevent spread of contaminating organisms.

DIRECTIONS

Pour a minimum of 3ml AHS-70 into the palm of the hand. Rub the hands and wrists together for at least 30 seconds. Ensure that the hands are thoroughly coated in gel. Allow to dry.

Use biocides safely. Always read the label and product information before use.

Consult the Safety Data Sheet.
