

ATTIX 30

Wet and dry vacuum cleaners

Nilfisk ALTO

Why Compromise

ATTIX 30

Wet and dry vacuum cleaners

Filter Cleaning As Standard

Manual Push&Clean filter cleaning on all ATTIX 30 models.

Superior Wet Dirt Collection

All NEW ATTIX vacuums include a PET filter which can be washed and is very hard wearing. To improve wet dirt collection the NEW range also features a 'fleece' filter bag. This NEW bag is more durable to wet dirt which means easier disposal.

Now With Battery Power

ATTIX 30 models are available in both 110v, 230v and battery power. This is the first battery driven wet & dry vacuum cleaner on the market. The Li-Ion battery technology provides 30 minutes of run time meaning there is no need to be concerned about trailing cables or connection to a power socket. (BATTERY version available Spring 09)

ATTIX 30-01 PC shown

Cable & Accessory Storage

Cable grip for easy cable storage, plus on-board storage for extension tubes and accessories.

High Mobility

The ATTIX range is highly mobile with reinforced front castors providing excellent movement along all surfaces.

Auto On/Off Socket for Power Tools (-21 versions)

Electric Power Tool dust extraction socket on all '-21' models mean the vacuum will start and stop when the tool is operated, reducing noise and power waste. The speed control also gives you control of the suction power and noise level.

High Performance And Capacity

Container volume of 30 litres mean the ATTIX 30 range can handle most applications. NEW improved turbine design provides high suction performance.

FILTER CLEANING SYSTEM

Push&Clean
Filter Cleaning System

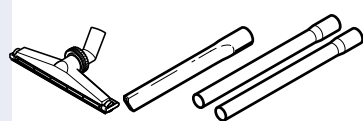

Push&Clean

For fast and simple filter cleaning
1) Block the inlet fitting or the hose
2) Push and release the filter cleaning button to activate air pulses which clean the filter from the inside out.
