

Foam Cleaning

For cleaning tasks in kitchens, butcher shops, micro breweries, wet rooms, showers, public swimming pools, changing rooms, fitness studios etc.

Foam Cleaning

Efficient, effective and hygienic cleaning in kitchens, butcher shops, micro breweries, wet rooms, showers, changing rooms, public swimming pools, fitness studios etc.

- Apply foam at a water pressure from 2-8 bar directly from the water tap.
- The coloured nozzles offer a chemical dosage from 0.4 to 10%.
- Colour coded chemical containers facilitates easy identification of chemicals.
